The next meeting is October 7th. Commissioner Kunze also provided his observations from the workshop.

7. Galt 150 Year Celebration Event Reflection

The commission reflected on this event. They felt that the event was enjoyable. However, they felt it was disorganized and many commissioners felt that they were not taken seriously. Commissioner Martin attended the planning meetings and arranged for the commissioners to assist with the hay rides. Commissioners signed up for times to assist in this activity. However, when commissioners arrived to volunteer, there were too many volunteers from other organizations and many commissioners were looking for other ways to contribute. Some expressed that they could have used their time differently and hoped that in future events they are treated with mutual respect and the community service they offer has purpose.

11. Adopting a Street Project

Commissioner Cuevas Murillo met with Barbara Payne, Galt Beautification Committee, and got the Adopt-a-Street paperwork the commission needed to do her project. It is a two-year commitment and the commission would have to clean the street three to four times a year.
