

CITY MANAGER'S WEEKLY UPDATE

October 16, 2014

SIMMERHORN-CARILLION WATER MAIN PROJECT

The contractor has started work on the installation of the water main along Simmerhorn Road and Carillion Boulevard. Area traffic will experience delays of up to 15 minutes during the course of the work along Simmerhorn Road, which will continue into November. Use of alternative routes is recommended, where practical.

VINTAGE OAK LIFT STATION PROJECT

A pre-construction meeting was held on Wednesday, October 15. The Contractor is scheduled to begin construction in the next couple of weeks, with installation of the bypass piping at the intersection of Carillion Boulevard and Vintage Oak Avenue being the first order of work.

WATER METER PROJECT

Over 2,100 water meters have been installed. The contractor is currently working in the Vintage Oak area.

EL & EL WOOD PRODUCTS

El & El Wood Products had their official groundbreaking ceremony on October 14, and are moving ahead with construction quickly. The site continues to be graded and prepared.
