

## CITY MANAGER'S WEEKLY UPDATE

August 6, 2015

### **BARSETTI VINEYARDS TASTING ROOM**

The Contractor is putting the finishing touches on the outdoor tasting area in front of the Barsetti Vineyards Tasting Room at 400 4th Street, Suite 150. The outdoor tasting area is in the three parking spots directly in front of Barsetti. This area was subject to a revocable encroachment permit approved by Council back in July 2014. The outdoor area morphed from a wood deck style to a stamped concrete patio to satisfy various constructability and patron accessibility issues.

### **SIMMERHORN CHEVRON**

The fueling area canopy is erected and the building area is almost fully framed and sheathed. Due to the visibility concerns, some segments of the tarp sheeting along the temporary construction fencing were removed. This has increased the visibility of vehicles stopped at the Hwy. 99 off-ramp.

### **DEVELOPMENT UPDATE**

The CSD Fire Department will be conducting their final inspection for El & El Wood Products today, which will allow the Building Division to make their final inspection next week.

### **NATIONAL NIGHT OUT**

National Night Out was a great success thanks to the City's fantastic partnerships with the community, our staff and volunteers.
